

WiFi Configuration

NETWORK KEY

Double click at wireless icon

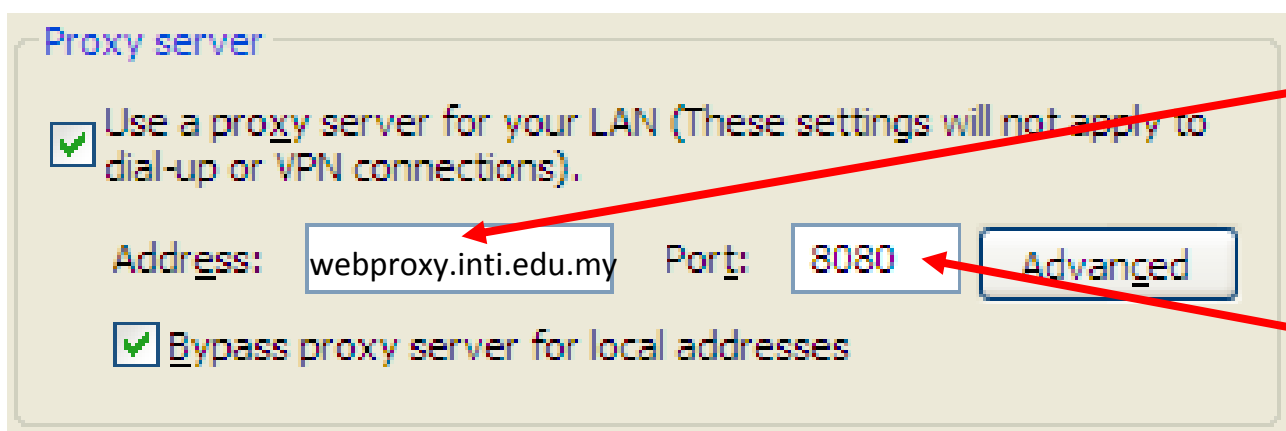

On the wireless network list, choose **IICS** and click **CONNECT**

The network key for IICS is **iics@2800**

PROXY SERVER SETTING

1. Go to the following tabs:
[Control Panel]-[Network and Internet Connections] - [Internet Options]
2. Next, go to the following tabs:
[Connections]-[LAN Settings] - [Proxy server]

webproxy.inti.edu.my

8080

3. Open your Internet browser. Successfully connection to a website confirms that your computer is setup properly.
